

## Health Screening for early detection of prostate cancer

Medical consultation

Blood tests according to patient need

Urological ultrasound

Urinary flow rate test

Prostate ultrasound

CT Urogram (optional)

### Urology check-ups are beneficial particularly for:

Men over the age of 45

Men with a family history of prostate problems

Men with urinary symptoms (decreased urinary flow or urinary frequency)

### Latest technology in diagnostic imaging:

We are able to provide multiparametric MRI of the prostate

## Why in HC?
