

## In-person Medical Consultations

From HC Marbella we want to communicate to our patients that, from this moment, **respecting all security measures** and **using independent circuits**, we offer face-to-face medical consultations for those clinical situations in which the visit to a specialist is recommended **to safeguard the patient's health.**

Digestive system · Cardiology · General and Digestive System Surgery  
General Medicine · Internal Medicine · Pneumology · Obstetrics and Gynecology  
Oncology · Radiology · Traumatology · Urology

Our **telematic consultations** are maintained (by phone, video call or e-mail), for those cases in which this modality is preferable.

Our **diagnostic imaging unit** continues its activity to complement any required test.
